

Successful with AutoForm!

AutoForm offers software solutions for sheet metal forming and BiW assembly process. With over 500 employees dedicated to this field, AutoForm is recognized as the leading provider of software for product manufacturability, tool and material cost calculation, die face design and virtual stamping as well as BiW assembly process optimization. All of the Top 20 automotive OEMs and most of their suppliers have selected AutoForm as their software of choice. Besides its headquarters in Switzerland, AutoForm has offices in Germany, The Netherlands, France, Spain, Italy, Czech Republic, Sweden, USA, Mexico, Brazil, India, China, Japan and Korea.

To support the growth of our Software Development Department in Switzerland (**Zurich**) or Germany (**Berlin, Dortmund**), we are looking for a

C++ Software Engineer (m/f) – 80-100%

Your tasks

- Design, develop, test, and maintain software frameworks and components for:
 - the modeling of production processes and the setup of simulations
 - the analysis and visualization of simulation results
 - geometry modeling and 3D visualization
 - graphical user interfaces (Qt)
- Refine rough ideas into detailed specifications
- Collaborate with other teams, from simulation to 3D graphics
- Work in an agile SCRUM team

Your profile

- Degree in computer science, engineering, or a natural science field
- Sound knowledge of OO analysis, design and programming
- Good programming skills in C++
- Strong technical interest, willingness to get involved in complex technical issues
- A collaborative team player with a problem-solving mindset
- Good knowledge of English and German required

Our offer

- A challenging role in a respectful and global working environment
- Be part of a world-leading, high-end CAE software company
- Work on cutting-edge technologies in the automotive industry
- Professional development organization working on multiple projects, supported by AI-powered tools and dedicated service teams including Architecture and DevOps
- Opportunities for professional growth and continuous learning, including the chance to explore new challenges by changing teams or projects through our annual internal marketplace
- Excellent work-life balance with flexible home office and working hours, complemented by a variety of sports activities and company events to support your well-being

Start of work is as soon as possible. We will only consider direct applications. Please send your CV and attachments with the **reference 25/08/pi** per e-mail to Michelle Schuler, Human Resources Zurich. We are looking forward to receiving your application.
